

# Future Direction for Cancer Registries

Barry Plewa  
Quality Assurance and Improvement Manager

Thames Cancer Registry

# National Cancer Registration Service

- Single England wide system
- Cancer Outcomes and Services Dataset compliant
- Facilitates rapid processing of multiple local and national data sources
- Common standards and processes including data quality
- Provides rapid and direct feedback of data to clinical teams to enhance data quality
- Support for (near) real-time surveillance, cancer audit and analysis
- Datasets available for external analysis and research

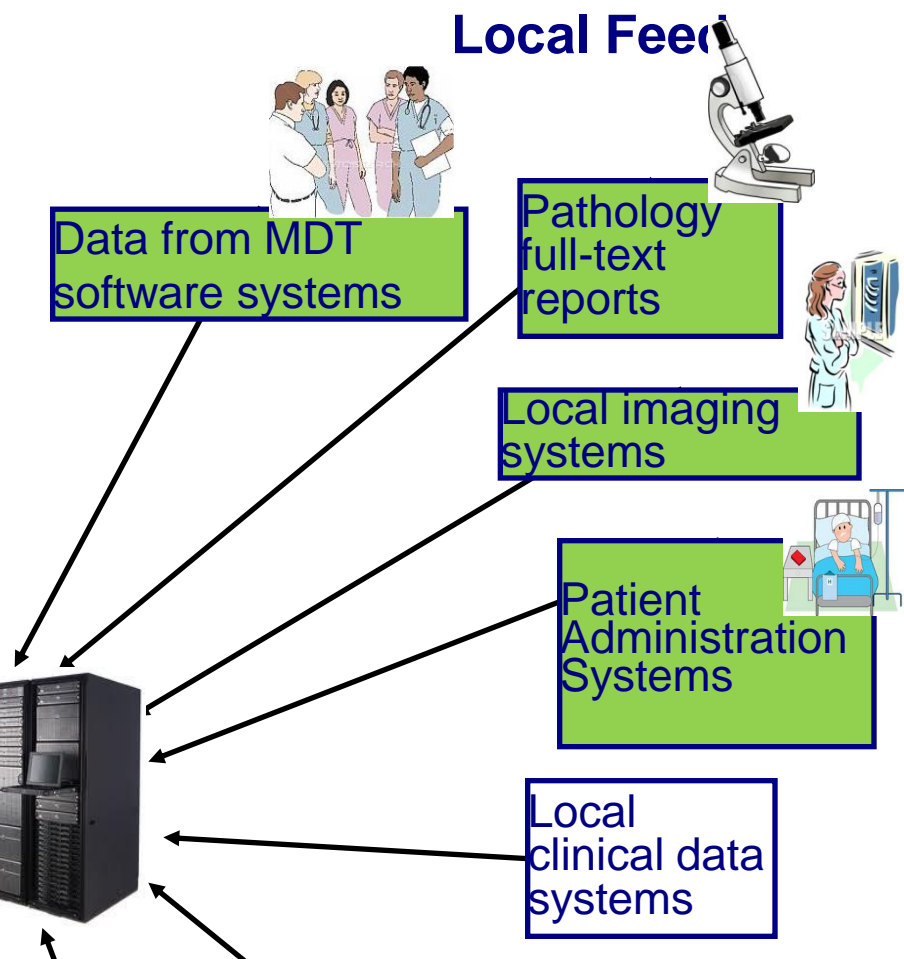

**Local data collection at MDTs is key to success**

# Data sources - patient-level data

## National Feeds

## Local Feeds

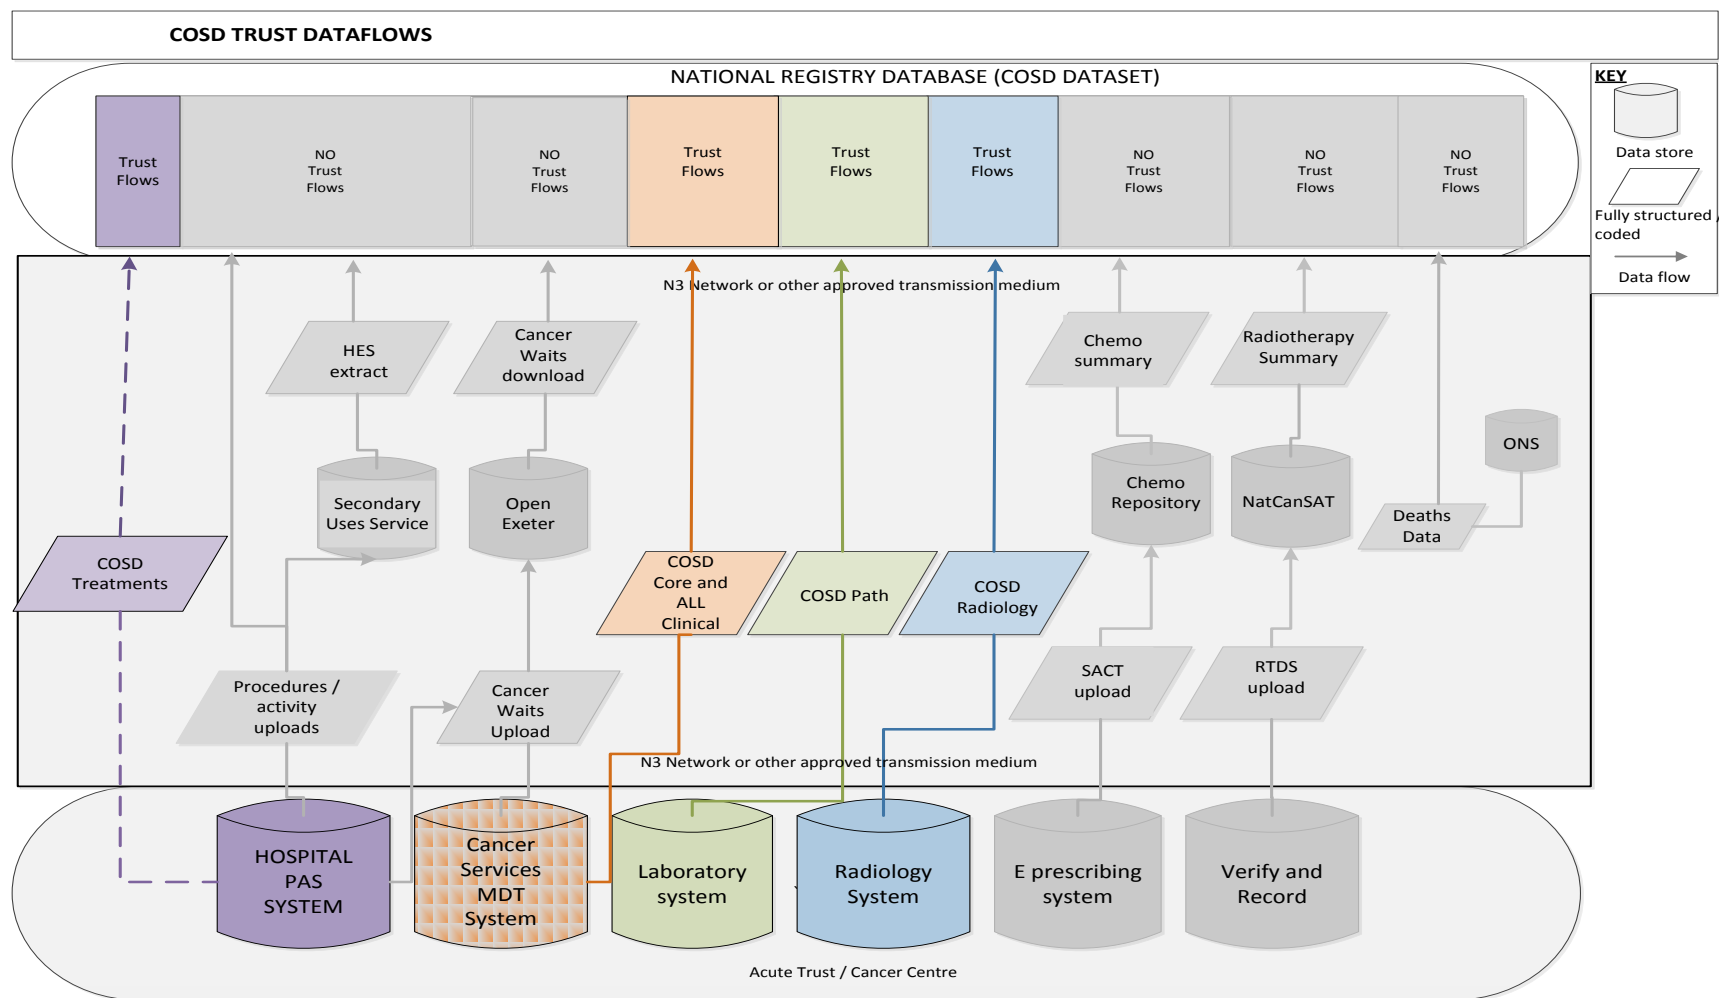

## National Pilots

Encore

# Direct Provider data flows

# Information Governance (1)

- S251 NHS Act exemption
  - All cancer registries covered – one annual application
  - Annual renewal through National Information Governance Board (NIGB) and corresponding statutory instrument
- Caldicott Guardian
  - sign-off required to allow transfer of data to and from organisations
  - existing signoff covers COSD

# Information Governance (2)

- Data Protection Act

- All cancer registries are registered under the DPA.
- Fair processing notices, including rights to withdraw consent, are provided through the UKACR Patient Information Leaflet
- Leaflet available from:

[www.orderline.dh.gov.uk/ecom\\_dh/public/home.jsf](http://www.orderline.dh.gov.uk/ecom_dh/public/home.jsf)

ACR078 About Cancer Registration

# Feedback for Providers and Clinical Teams

- Monthly Conformance Report
  - Extract files received, number of cases, timeliness etc
- Data Quality
  - Initial completeness eg NHS number, stage, performance status
- Summary Information Indicators
  - Eg % histologically verified, RCPATH data item completeness
- Clinical and Performance Indicators
  - NICE Quality Standards etc
    - Eg % lung resections
    - % breast conserving surgery with no RT

# Proposed Feedback Timetable

# Future Feedback?

## MDT Data Completeness

Filter

This report shows the completeness of certain key data items received as discussed at MDT. By clicking on your Trust from the map above, you will appear on the performance chart to the right. You can compare your Trust's performance with other Trusts by clicking on the 'Compare' button on the right. You can scroll the data table by hovering over the data and using the mouse wheel or holding the left button and moving down. A full user guide is available by clicking the 'Help' icon in the top right corner. This will give you detailed instructions on how to use this report effectively. If you click on a specific Trust, you will see a detailed view of that Trust's data, including 'No Data' or 'No MDT', additional information about a specific Trust, and the 'Notes' icon before the hospital's name in the MDT Data Completeness table.

# The Future

- A single cancer registration system (ENCORE) for England
- COSD compliant
- Routine, timely feedback
- Improved registry/Network partnership working
- Provide powerful data for local, national and international analysis

# Examples of Current Feedback

# Core Dataset – Jan 2013

- Very similar to current Cancer Registry Dataset
- Some data items removed, some added
  - Staging certainty removed
  - Staging version added
- AJCC Stage Group

# Clinical Site Specific - July 2013

- 4 clinical site-specific skin data items
  - Grade of Clinician/Surgeon Operating
  - Clinical Diagnosis (Pre Histology)
  - Skin Cancer Lesion Indicator
  - Site Code of Specimen

# Pathological Site-Specific – Jan 2014

- 19 pathological data items for skin
  - Clarkes/Breslow
  - Lesion Information
  - Nodes Sampled/Positive
  - Ulceration Indicator
  - Mitotic Rate
- All will continue to be extracted by Registry in the next few years.

# Thank you!
